

marlon **fs** Safety Glazing

The Building Regulations determine the critical locations where safety glazing is required and the robustness or manner in which it breaks. The requirements can be found in the following documents;

England – Approved Document K

Wales – Approved Document N

Scotland – Technical Handbook Section 4: Safety

Northern Ireland – Technical Booklet V

Ireland – Technical Guidance Document D

Flatsheet polycarbonate 6mm or greater will achieve the highest classifications for safety glazing;

BS 6206 – Class A

BS 6262 – Class A

EN 12600 – Class 1
